1/2

Don't know what to say or do,
Lights went out but I noticed you,
Were gonna leave me, you should a seen me

I lay in bed and I dreamed away,
What went down, then I heard ya say,
I'm gonna leave ya,
I don't wanna to see ya

So I walked in the dark to save the light,
Coz I never woulda found ya in the light
And my thoughts are so loud, they're in the way

I was really blown away, that's what you do to me
And to feel this way I knew before its truth to me
Ah ah ah...ah ah, ah
Ah ah ah... ah ah...

Inroads, I gotta new phone, electric bone with telephone jive
And so I got new clothes, show the folks that I'm still alive
That's right

Here it comes like a tidal wave, it's another way to sit back and lie
So when you run, gotta hide away, gotta find a new place to survive

Now I've found it's a world away
Got it on, but it's hard to say
I'm gonna miss ya, I really wanna kiss ya.

Gotta want, gotta play the game
Nothin' on, feel I'm going insane
It came to meet ya, the main feature.

So I walked in the dark to save the light,
Coz I never would a found ya in the light
And my thoughts are so loud, they're in the way

I was really blown away, that's what you do to me
And to feel this way I knew before it's truth to me
Ah ah ah...ah ah, ah
Ah ah ah... ah ah...

Hey ho if ya wanna know, there's a radio show
That's playin' on drive (Sha la la la la la)
And so for the first time, we hear the song and then we sigh... Ahhhhhh.

So it hits like a hurricane, it's a frightening thing to survive
I want it easy let's sell the world
and then get the hell on with the ride

So come on baby let's SHOUT... I said SHOUT
Yeah I wanna SHOUT... I said SHOUT out LOUD.

Blown Away
